A FEW PROPHESIES FOR 1940

For many years humankind has been trying to put into the future and to know, ahead of time, what is coming. Generally, people are interested in the prophecies of the future, and many of them are very accurate. In the past, many of the prophecies have been fulfilled, and many of them are still being fulfilled. In the future, many of the prophecies will be fulfilled, and many of them are still being fulfilled.

According to the unidentified prophet, Hitler's health will fail, and Field Marshal Hermann Goering will succeed him and then may open a pathway to a second world peace. Generally, it says that there will be a strengthening of the ties between the world and a disintegration of authoritarian government. Important monthly predictions for 1940 are:

1. January, an important Soviet political leader will die; in February, Japanese imperialist aims will be sharply checked, notably by the United States; Germany and Italy will have economic and political crises; something sensational is promised in March about a Nazi leader; a Prime Minister Chamberlain will make a major political achievement in April, leading to the publication of a new European.

In May there will be a cyclone over Florida, adverse conditions in Germany, and Italy and much military activity in Poland, Russia and Rumania. In June, Premier Mussolini and King Victor Emmanuel must watch their steps because the signs are in July, of a new world war.

Evergreen

Evergreen, Jan. 9. - For a young tree of 9 nine days, 1940 is away ahead of the rest of the year, as much as it seems to have made a flying leap from the north pole, with all the accumulated deficiency of snow and ice that has been piled up for the past decade.

With the beautiful crops produced in 1939, and with the evidence of returning prosperity, with everybody everywhere waiting to stay out of the horrid war that seems to be gradually spreading over the universe, I think you will all agree with me that the U. S. A. are the best government, the most prosperous people in the world to live with. I think most of you will agree with me that Virginia is the best of the States in which to live; that Appomattox county has the best of the State best to a frazzle in historical interest and the congeniality of its people. But listen: the Evergreen community is home to good, honest, hard-working, many of whom live to an old age, and who are the fathers of their ancestors.

"The poll tax should either be removed, or else repealed altogether. If this form of tax is to be continued, it should be safeguarded and probably reduced in amount so that more people would individually become interested in its payment."

Headache, Bad Breath
Tell of More to Come

Just as Paul Revere's famous ride warned the patriots of the British, so Nature's messengers - headaches, illnesses, bad breath - often warn of faulty elimination.

Neglecting these signs may cause a host of constipation's discomforts: sour stomach, belching, no appetite or energy, mental dullness.

It's so easy to wake up your lazy insides. Just take spicy, all vegetable BLACK DRAUGHT. Its powerful laxative action keeps the bowels moving. Millions of packages used today to BLACK DRAUGHT. Try it.
